Project Title: Jellyfish

I want to build a website that really visualizes jellyfish, while also sharing interesting information about them. It may be beneficial to have multiple pages, but the website will be divided up into sections to have better organization and structure. I hope to keep the reader engaged, and design a jelly-fish inspired website.

Home Page

- Jellyfish overview

Phylogeny, Taxonomy, & Anatomy

Ecology

Role of Humans

Sources – this page will just list sources, including the Wikipedia page
